

SATYAM KUMAR

Full Stack Developer • 3+ Years Experience • React.js • Node.js • Agentic AI

8210708877 • ssatyamkumar3@gmail.com • linkedin.com/in/satyam-kumar-17420b1a9 • github.com/ssingh7250 • Aurangabad, Bihar

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of experience building high-performance, enterprise-scale web applications. Expert in React.js, Node.js, TypeScript, and JavaScript (ES6+), with hands-on experience in Docker, Kafka, and Redis for scalable, distributed systems. Skilled in Agentic AI workflows (LLM APIs, AI agents, tool-use) and Agile delivery, code review, and mentoring.

TECHNICAL SKILLS

Frontend: React.js (Class & Functional + Hooks), Next.js (SSR/SSG/ISR), TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux, Context API, Material UI, Bootstrap, AG Grid

Agentic AI: LLM API Integration (OpenAI, Claude), AI Agents, Tool Use / Function Calling, Prompt Engineering, LangChain basics

Backend: Node.js, Express.js, RESTful API Development & Integration, JWT Authentication, Bcrypt, CORS

DevOps & Infra: Docker, Kafka, Redis, CI/CD basics, Web Vitals (LCP, FID, CLS)

Database: MySQL, PostgreSQL, Firebase, SQL Query Optimisation, Indexing, Joins

Tools: Git, Postman, Agile / Scrum, Debugging, Code Reviews, Objection.js, Knex.js, Vite, Webpack, ESLint, Prettier

PROFESSIONAL EXPERIENCE

Software Developer — RSG Media Systems

May 2023 – June 2026 | Full-Time | Team Size: 10+ Engineers

- Architected & maintained scalable React.js + Node.js + TypeScript frontend & backend architecture for enterprise media rights & asset management — serving 5,000+ digital assets across live production workflows.
- Designed & documented reusable, strongly-typed React components (Class & Functional + Hooks) from wireframes and UX designs — reducing code redundancy by ~30% and improving maintainability.
- Implemented AG Grid with custom cell rendering, sorting, filtering, and virtual scrolling to handle 10,000+ records; applied code splitting & lazy loading — boosting Lighthouse score by ~35%.
- Built & integrated robust Node.js + Express.js backend services with RESTful APIs — supporting 15+ business modules, third-party integrations, JWT auth & secure data handling.
- Optimised SQL queries (joins, indexing, subqueries) and React render cycles (useMemo, useCallback, React.memo) — achieving ~40% faster overall load times.
- Resolved critical production incidents (caching failures, API breakdowns, UI regressions), maintaining 99%+ uptime and strengthening platform reliability.
- Led rigorous code reviews, mentored 2 junior developers, and championed engineering best practices — improving onboarding speed and team code quality.

KEY PROJECTS

Cargo Yaan — Enterprise ERP System | React · Vite · Node.js · PostgreSQL · JWT · Bcrypt

- Enterprise logistics ERP with JWT + Bcrypt authentication, CORS support, and real-time analytics dashboards — fully deployed and publicly accessible.

AI Smart Assistant — Agentic AI Project | Next.js · TypeScript · OpenAI API · LangChain

- Built an AI-powered smart assistant using Next.js + TypeScript with OpenAI API integration and tool-use / function calling — enabling intelligent, context-aware responses.

Rights & Asset Management System | React.js · Node.js · PostgreSQL · REST APIs

- Developed RBAC, rights allocation workflows, and deal configuration modules — managing 5,000+ media assets with versioning, data integrity, and a responsive UI.

CERTIFICATIONS

- JavaScript Algorithms and Data Structures — PrepBytes
- React - The Complete Guide (Hooks, Context, Redux) — Udemy
- Understanding TypeScript — Udemy

EDUCATION

Master of Computer Applications (MCA) — Jain University | 2022–2024 | CGPA: 8.4

Bachelor of Computer Science — Lakshya Institute of Technology | 2019–2022 | CGPA: 9.3
